

**APPLICATION FOR APPROVAL OF UTILITY CONSTRUCTION
ON ADAIR COUNTY RIGHT-OF-WAY**

Date: _____

Applicant: _____

Address: _____

Type of Utility: _____

Adair County Board of Supervisors:

Approval is hereby requested for Under-Ground Construction of

Map of proposed under-ground construction showing location shall be attached to each copy of the application.

AGREEMENTS: The applicant agrees that the following stipulations shall govern this permit.

1. All underground utilities must installed with a minimum of 48 inches of cover through the Right-of-Way
2. The applicant will at any time subsequent to placing the _____, and at his own expense, relay, reconstruct or encase his lines as may become necessary to conform to new grades, alignment or widening right-of-way, resulting from maintenance or construction operations by the County irrespective of whether or not additional right-of-way is acquired in connection with such highway improvement. The applicant agrees to do this promptly on order by the County, and without cost to the County. If the applicant is unable to comply promptly, the County may cause the work to be done, and the applicant will pay the cost thereof upon receipt of statement. The County will endeavor to give the applicant sufficient notice of any proposed construction or maintenance work, on either existing or newly acquired right-of-way that is likely to expose, cover up, or disturb any _____ belonging to the applicant, in order that the applicant may arrange to protect his lines. The County will inform contractors, and others working on the job, of the general location of the lines, so that reasonable care may be taken to avoid damaging the lines. The County assumes no responsibility, however, for failure to give such notice.
3. The County assumes no responsibility for damages to the applicant's property occasioned by a construction or maintenance operations on said highway, including new or additional right-of-way acquired in connection therewith, subsequent to the building of said _____.
4. The applicant shall take all reasonable precautions during the construction of said _____ to protect and safeguard the lives and property of the traveling public, adjacent property owners and shall save the County harmless of any damages or losses that may be sustained by the traveling public or adjacent property owners of such construction operations.
5. Operations in the construction and maintenance of said _____ Shall be carried on in such way as not to interfere with, or interrupt traffic on said highway.
6. The applicant shall hold the County harmless from any damages that may result to said highway because of the construction or maintenance of said _____, and shall reimburse the County for any expenditure that the County may have to make on said highway on account of said applicant's _____ having been constructed thereon.

7. The applicant agrees to give the County forty-eight (48) hours notice of its intention to start construction of the highway right-of-way.
8. Cable, pipe line and tile line crossing paved roads shall be constructed as follows: Pipe lines having and inside diameter of more than 2 inches which cross under the roadway shall be placed in casings so that the pipe may be removed for repair without disturbing the subgrade. The casing shall be of adequate strength, and of sufficient length to extend 2 feet beyond the edge of the surfaced roadway. On paved roads, cable casings may be placed through the subgrade by jacking, or by boring a hole just large enough to take the line: or if the County Engineer approves, a tunnel may be dug through, and the _____ placed therein. On roads not paved, an open trench may be dug and the _____ placed therein, and the trench backfilled over the line. All backfilling of tunnels and trenches shall be thoroughly compacted in layers of 6 inches or less in depth. Backfilling of trenches within the right-o-way shall be tamped sufficiently to avoid settlement. All work shall be done in a workmanlike manner, and the ground left in neat condition, satisfactory to the County Engineer in charge.
